

# CURIOSITY AT HOME

## ANIMAL SIGNS SCAVENGER HUNT

Sometimes, it's hard to actually see animals when we're out walking in our neighborhoods, or even when we're in a park! But there are ways we can tell we share this space with animals—we can look for clues that they've been here!

Use the **pictures below** on a scavenger hunt to look for different signs that animals have been nearby. What animal signs are the easiest to find? Are there any that you can't find? Why do you think that might be?

Fur

Burrows

Nests

Scat

Feathers

Spider Webs

Holes in Trees

Holes in Leaves
