

EXPLORE STEM WITH OUR SUMMER SCIENCE SERIES!

Bring PacSci to your program site with a **Summer Science Series**. Our educators join your learners for four 1-hour interactive STEM workshops throughout your summer program experience over one or four weeks.

PROGRAM OFFERINGS

Phenomenal Physics

- Discover how everything around us works as we dive into the science of matter and energy. Physics has it all: light, sound, electricity and motion! Available for K-2nd grade or 3rd-8th grade.

Engineer It!

- Delve into the world of invention and problem solving while exploring the knowledge, skills, and tools used to change our lives. Available for K-2nd grade or 3rd-8th grade.

STEM Sampler

- Explore the wonders of science from astronomy to electricity and from stars to sounds as our educators bring their favorite STEM workshops from across our collection. Available for K-2nd grade or 3rd-8th grade.

SERIES FORMATS

Each package consists of four 1-hour visits to your program site.

- **One-week series:** We visit your program with a one-hour workshop daily for 4 days in the same week. Example: 1:30–2:30p.m. July 8–11 (Monday through Thursday)
- **Four-week series:** We visit your program with a 1-hour workshop one day per week for 4 consecutive weeks. Example: 1:30–2:30p.m. four Mondays in August

PROGRAM LOGISTICS

- 32 participants maximum per workshop
- Add a second or third sequential workshop to each program day if you have more than 32 participants
- Programs available 8–11:30a.m. or 1:30–5 p.m. Monday – Friday, June 15 to August 31
- Available in King, Pierce, and Snohomish counties within a 1-hour drive of Pacific Science Center

PRICING & FINANCIAL ASSISTANCE

Number of Lessons	Cost
4 lessons	\$1,550
8 lessons (two sequential workshops per day)	\$2,400
12 lessons (three sequential workshops per day)	\$3,200

Summer Science Series may be free for low-income audiences. Submit an inquiry to determine your eligibility.
